## Join the Mobile Revolution

Communicator is Australia's leading mobile marketing agency, a front-line pioneer formed by likeminded people of diverse talents with a shared vision: to extend traditional marketing by connecting brands with people in a wireless world.

We are looking for a J2EE developer to join our diverse team...

The role would suit someone who perhaps is already working in a Java environment with approximately 12months experience, ideally with commercial knowledge in J2EE

- Highly motivated self starter with can-do attitude and good time management abilities
- Strong communication skills, both written and verbal
- Must be able to work effectively and creatively within a team environment or independently
- Hunger to innovate, use leading-edge technologies and try new things
- Attention detail with natural tendency to achieve high standards & technical outcomes
- Capability to take ownership and full responsibility for projects & issues

Day to day you'll be working with big brands and agencies delivering innovative mobile marketing solutions. Your role won't just stop at mobile you'll be developing and connecting multiple channels.

Technically we require:

- A Degree in IT or relevant equivalent knowledge and experience,
- Familiarity with JAVA, SQL, XML, XHTML, JSP/Servlets, JavaScript
- Exposure to Object-oriented methodologies and Project Life Cycle
- Mobile Experience Preferred

More importantly you'll need a passion for all things mobile and a desire to learn more .....

To apply, please send your resume to [info@communicator.com.au](mailto:info@communicator.com.au)
